

**EMBER is a security-first consulting and managed services firm. We specialize in cybersecurity, IT operations, engineering, and analytics—built for scale, resilience, and results. Whether transforming legacy systems or managing critical environments, we help organizations thrive in complexity.**

**Security is at the core of everything we touch, implement, and manage.**

We don't just detect threats—we neutralize them swiftly and implement forward-looking defenses to keep clients ahead of what's next. With deep expertise spanning cybersecurity, strategic consulting, and full-lifecycle IT operations, EMBER builds custom teams aligned to each organization's unique needs. Whether securing critical infrastructure, modernizing legacy systems, or managing complex environments at scale, we deliver the precision, flexibility, and resilience today's digital landscape demands.

**SOC 2 Type II  
Certified  
Built to Trust**

**We implement and manage technology solutions that streamline operations, strengthen security, and support long-term growth in an increasingly complex digital landscape.**

**FANATICAL SUPPORT  
MANAGED SERVICES**

With deep roots in Managed Services, our team was built for this. Whether deploying new solutions or optimizing existing ones, we ensure your technology works as hard as you do. Our services keep operations running efficiently, securely, and ready to scale.

**RELENTLESS SECURITY  
SECURITY SERVICES**

Security is our focus 24/7/365. Our proactive, always-on approach, combined with best-in-class strategic partnerships safeguards your critical infrastructure and network systems, empowering our clients to meet the critical challenges of maintaining security in an ever-evolving threat landscape.

- Persistent Vulnerability Management
- Endpoint Protection
- Penetration Testing
- Awareness Training
- Continuous Threat Exposure Management

**WHO WE ARE** Led by two seasoned technology leaders who bring a blend of enterprise expertise and entrepreneurial execution. EMBER delivers a comprehensive range of services—from strategic problem solving and hands-on implementation to long-term operational support. Our team unburdens clients from the constant pressure of managing complex technology, so they can focus on growth, performance, and resilience.

# EMBER<sup>™</sup>

# BIOPHARMA SERVICES

EMBER delivers secure, compliant IT and security services that help biopharma organizations protect intellectual property, maintain regulatory readiness, and scale operations with confidence.

## TAILORED SOLUTIONS

- 1. Cybersecurity & Threat Response:** Continuous monitoring, MDR, and rapid incident response to safeguard sensitive research data and corporate systems.
- 2. Regulatory & Compliance Enablement:** Security programs aligned with FDA, HIPAA, and international standards to withstand audits and inspections.
- 3. Intellectual Property & Data Protection:** Strong safeguards for proprietary research, clinical insights, and commercialization strategies.
- 4. Enterprise IT Infrastructure Support:** Reliable management of networks, servers, and devices across offices, labs, and production facilities.
- 5. Collaboration & Secure Data Sharing:** Hardened platforms for connecting researchers, global teams, and industry partners without risking data exposure.
- 6. Cloud & Hybrid Infrastructure Management:** Scalable, secure solutions for handling large datasets, advanced analytics, and distributed environments.
- 7. Identity & Access Management:** Role-based, least-privilege access and authentication frameworks to protect critical systems and sensitive information.
- 8. Business Continuity & Disaster Recovery:** Proven strategies to preserve uptime, protect research timelines, and sustain operational resilience.
- 9. Endpoint & Device Lifecycle Management:** Secure, standardized provisioning for scientific equipment, workstations, and mobile endpoints.
- 10. Strategic IT & Growth Roadmaps:** Executive-level planning to support expansion, partnerships, and long-term commercialization goals.
